

C.Y.O. Sports

Emma, Allison, Carly, Dominic,
Jake, Alexis

The sports that started so far are soccer and track. They have done very well and will do even better as the season continues.

Soccer Varsity Girls have a record of 2-4 and they are doing very well. They won recently on Friday, September 29, 2017. Congratulations to the varsity girls!

Now onto the varsity C.Y.O boys, the j.v boys soccer team is now 2-0 in their soccer season. They won 7-5 in their most recent game. The varsity boys teams most recent game was a tie to Saint Martha's. The soccer teams are all very good and will do even better as their season goes on.

Now onto cross country track. Cross country is doing well and they run about 2 miles or more! There were 2 meets and they run up 5 hills. In each race there are up to 900 kids! All the teams are very good and very strong. GO B.V.M.!

Ms. Jasich Interview

By: Dylan, Julia, Julia, Joseph

Student- How many years have you been teaching?

Ms. Jasich- Officially two years but I have been tutoring for more than ten years.

Student- Who or what inspired you to become a teacher?

Ms. Jasich- I've had great English teachers from 5th to 8th grade. They inspired a love of English in me that made me want to inspire future generations to love English and Reading.

Student- What are your thoughts and feelings on B.V.M. so far?

Ms. Jasich- B.V.M. has been so welcoming between the students and teachers. 8th grade is a great class and I have amazing teacher partners in the annex.

Student- What advice do you have for students who want to be a teacher?

Ms. Jasich- It's a lot of hard work to both prepare to be a teacher, and continue your training. But if you want to inspire the love of learning in students then it is one of the most rewarding careers you'll ever have.

Student- What has been your favorite place to travel?

Ms. Jasich- Recently, I have visited Washington state to visit family and see the sights, it was beautiful. I was privileged to see New Orleans before Hurricane Katrina.

Student- Which do you like teaching more, E.L.A. or religion?

Ms. Jasich- I enjoy both. Religion is the foundation of our faith, however English is one of my passions so that comes out a little bit ahead.

The B.V.M. Student Buzz

Meet the New Student Council

Brianna, Papakojo, Kristin, Denis

On September 15 at 9 o'clock, The Student Council Installation Mass was held to honor our student council representatives and our eighth grade President, Vice President, Secretary, and Treasurer. In this Mass, the student council members were given pins to designate them as official members of the student council. They then recited a pledge which they vowed to follow. It said, "We, as student council representatives in Maternity B.V.M School, encourage a respect for others students and teachers." The student council representatives are Papakojo, Francis, Kristin, Anthony, Roy, Carly, George, Alyssa, Gianna, Joe, Stefanie, Michael, Gavin, Regan, Kristina, and Denis. Papakojo was asked how does it feel to be in the annex and apart of the student council? "It is a different routine because we have so many classes, I feel very proud of myself."

Roy was asked what he is looking forward to while being in student council? "Doing a lot more activities and after school" "How does it feel to have won and be in the student council?" I asked. "I didn't expect to be elected but when I was I felt pretty good!" The Secretary Kristina was asked why did she wanted to become Secretary? "The main reason is that it would look great on my high school application, but ever since being a representative in 7th grade, I wanted to be more responsible. I also wanted to be a good role model and leader for kids." Last but not least President Gavin was asked why he wanted to become President. Gavin said he loves being a leader and that he thought it would be fun. Gavin wanted to have improved announcements in the mornings. With the help of great representatives that were wisely and thoughtfully chosen by our classes just like Gavin said: "let's have a great year!"

Electives

Olivia, Ella, Ammeq, Angela, Samaira

Electives are a normal BVM activity. This year, we have some new choices. These choices include: "Food for Science", "Bake and Take", and "American Sign Language!"

"Bake and Take" is Ms. Gallagher's Elective. This elective is where you get to cook! If you are in this elective you get to make and take home delicious and fun treats!

The new 8th grade teacher Ms. Jasich is doing "American Sign Language" for the annex building. In this elective you will learn how to communicate in sign language. We are sure this is going to be a fantastic elective!

"Food for Science" is hosted by Ms. Laurich. This is where students get to do cool science experiments involving different types of food/treats. A lot of students have signed up already.

These are some of the electives throughout our annex building and 2nd floor. We are sure that all these teachers are going to do a great job conducting these electives and, everyone will enjoy them!
